HUTTON ACCIDENT

LETTER FROM A. J. LAWSHE
GIVES DETAILS OF FATAL
AUTO ACCIDENT

Rev. C. A. Cole of this city has received the following letter from A. J. Lawshe, well known in Glendale as Vice-Chairman of the local Red Cross Chapter. Last spring Mr. and Mrs. Lawshe and Mr. and Mrs. C. E. Hutton of Colorado boulevard, Glendale, made a transcontinental tour together but in separate machines to the middle west, where they spent the summer. They had been en route home for some time when word was received a few days ago of the instant death of Mr. Hutton at Santa Fe by the overturning of the auto in which he and Mrs. Hutton were driving. This letter gives the particulars of the tragedy.

Santa Fe Indian School,
Santa Fe, N. M., Oct. 21, 1918.
Rev. C. A. Cole,
Glendale, Cal.

Dear Bro. Cole:

I wired you yesterday concerning the terrible accident to Mr. and Mrs. Hutton, and wired you again today that a letter would follow.

I had already wired Mr. John C. Dingle and have had a reply that he will arrive tonight. I visited Mrs. Hutton at St. Vincent's hospital this morning and found her perfectly conscious and rational. The physician and nurse both assured me that she was not seriously hurt. No bones were broken but she was terribly bruised.

We do not know how the accident happened or what caused it. Mrs. Hutton tells me that she does not understand what caused it. There were three machines in our party, Mr. and Mrs. S. S. Davis, of Chicago, ourselves (Mrs. Lawshe, her mother and myself) and Mr. and Mrs. Hutton. By agreement, Mr. Davis drove in front as pilot, followed by our car, with the Huttons bringing up the rear. We endeavored always to keep in sight of each other or wait at intervals until all machines had come together. We had been detained by bad weather and reached Santa Fe Saturday about 11:30 a. m. and all put up at the Coronado Hotel, as it was raining hard most of the day. We were anxious to get over the La Bojada grades and to Albuquerque, which is 2000 feet lower in altitude than Santa Fe and warmer. For this reason we decided to drive to Albuquerque on Sunday. It has not been our custom to drive at all on Sundays, but unusual conditions seemed to make it necessary at this time. We left Santa Fe together at about 11 o'clock Sunday morning and had reached a point about three miles out when, in crossing a rut, Mr. Davis broke a clasp to one of his springs. We stopped probably fifteen minutes to put in a bolt and suggested to the Huttons that they drive ahead and that we would catch them soon. They went ahead. At a point eleven miles west of Santa Fe is a heavy grade known as "Little La Bojada." The Davis were ahead of us and passed up the grade without noticing anything unusual. As our car approached the top of the grade, Mrs. Wampler (Mrs. Lawshe's mother) in looking down the chasm or canyon, suddenly exclaimed, "There's a car!" Mrs.

(Continued on Page 2)

FEWER POLLING PLACES

FRANCIS BOOTH MAKES GOOD
SUGGESTION FOR COMING
ELECTION

October 24, 1918.
To the Editor of the Glendale News.
Dear Sir:

Now that the coming election for November 5 is soon to be here, I hope the powers that be will have the polling places in more conspicuous places where the voters can find them. At the Primaries, dozens of voters asked me where they had to vote. The polling places ought to be held at school houses or some city buildings and not in some obscure garages in the rear of private residences. Why, some of the precincts only averaged 18 votes. This must have cost the state an enormous amount of money for so small a poll.

If there had been two precincts, one in the Tropic district school and one in the Glendale district school, this would have saved a considerable sum of money and I believe would have resulted in a much larger poll and given the candidates a much fairer chance. As it was, some good candidates were eliminated in the race by the electors not being able to find the polling places, thereby losing interest in the election.

Yours truly,

FRANK BOOTH,
318 E. Broadway, Glendale.

OPTIMISTIC LETTER

PRIV. H. CHASE RAND WRITES
FROM THE FIGHTING FRONT
IN FRANCE

Mrs. A. H. Rand of Howard street has just received a letter from her son H. Chase Rand, who was graduated from a motor school with the rank of Acting First Sergeant. He signs as Private Rand and states that he has been transferred from the Ammunition Train to Battery F of the Field Artillery and that he is now on the fighting line. Her supposition is that he sacrificed rank for the chance to get to the front. He writes he is feeling well and that the men of his division were the first Americans to strike the place where they now are; that the French people hardly knew how to take them. The first day the boys were there they bought up all the local stocks of jellies and jams, and the next day all the butter and cheese, not because they were not well fed but because what they bought was different. The weather, he said, was fine and he thought by the looks of things he would be able to eat Christmas dinner at home. He declared he would like to write two books of his experiences but that he was prevented from doing so by military ethics, so would have to write nonsense instead of facts. He said the boys were feeling fine and all in the best of health, that it seemed to them the Kaiser didn't know when he was licked and they might have to knock his head off. The letter was dated September 15th. In a previous one he said the boys were putting shells over so fast in his division that the Huns thought they were using machine guns and he added that they "sure were traveling fast," and he saw nothing to hinder the army from keeping up the advance.

MISS SHARPE HOME

Miss Barbara Sharpe has been spending the past week at home with her parents on North Central avenue. She teaches in Covina, where the schools are closed on account of the "flu." Her brother John is still at Fort MacArthur, which is quarantined. He writes that sheets have been hung between their cots to isolate the sleepers and thus prevent infection. According to the tales he tells, they spend a good deal of time shying shoes over the tops of the sheets and he says the quarantine makes the boys very cross; that their chief and almost only amusement is band concerts by their own band. Miss Sharpe has recently received a letter from Private Carlton West now at Fortress Monroe for special training. He writes that influenza has been very bad there and has made him quite blue. He had had a touch of it but is all right now.

TRANSFERRED TO LAKE CHARLES

Mrs. Maud L. Potter of Everett street states that her son, Lieutenant Charles M. Potter, has been transferred from the Florida field where he was flying to Camp Gerstner at Lake Charles, Louisiana. Just before he was transferred a bad storm wrecked the hangars there and did other damage which has not been fully repaired on account of quarantine for influenza, though there has been little sickness in the camp. He is flying some, but not as much as heretofore. He says there is quite a shortage of mechanics.

PATRIOTIC FOOD PRODUCERS

C. O. Pulliam and assistants have very industriously cultivated the piece of ground west of the Pulliam Undertaking Co.'s building the past season, and it would take a whole column of space in the Evening News to tell what has been produced on that lot since last February. The many lug boxes of potatoes, the delicious melons, tomatoes, squash and beans that have been carried from that well-irrigated and cultivated parcel of ground testify to the true patriotism of Mr. Pulliam and helpers.

TAKE NO CHANCE WITH A VIPER

We bled in France, we died in France But that thought's not uppermost; We can bear bravely our wounds; We will rest quiet in our graves. Only—if we know beyond a doubt That the job when finished Is finished for eternity throughout. So then mark well his slimy fawn And ere the Serpent's freedom given, The freedom of creatures who stand upright, Make sure his fangs are drawn. C. H. M.

FOCH OUTLINES TERMS

NOTIFICATION TO GERMANY OF ALLIED COMMANDERS' PLANS FOR ARMISTICE NEXT MOVE

(Special Service to Glendale Evening News)
WASHINGTON, October 24.—It was authoritatively learned here today that Marshal Foch and other allied commanders have formulated the terms which Germany must accept to get an armistice. Essentially the terms are:

The evacuation of Alsace-Lorraine and Russian Poland. The cessation of all operations in German munitions plants, with allied representatives in charge to see that the provisions are fulfilled.

Surrender of the German submarine fleet and allied occupation of all German battleships.

Complete evacuation of France and Belgium. Compliance with such other conditions as were previously outlined by President Wilson.

It is considered here that Germany now has the alternative of quitting cold or fighting to a bloody finish as the result of President Wilson's last note, which virtually calls for unconditional surrender. Notification to Germany of plans for an armistice by allied commanders is expected to be the next move.

Authoritative diplomatic sources said today that Turkish agents are in touch with allied representatives in Switzerland and they have been given the alternative of unconditional surrender by the Turks or the allies will start an offensive against Constantinople, starting with a push across the Adrianople line where the allies are already concentrated.

LONDON, October 24.—Information received here is to the effect that the allies have agreed as to what the terms of any armistice with Germany must be.

ANGLO-AMERICAN DRIVE RESUMED

MAKE GOOD PROGRESS, CAPTURING SEVERAL TOWNS AND CROSSING ESCAILLON RIVER

(Special Service to Glendale Evening News)
LONDON, October 24.—Field Marshal Haig announced today that the Anglo-Americans this morning resumed the attack between the Scheldt river and the Sambre-Oise canal. Last night they captured Beaudignes, Neuville and Salesches and crossed the Escaillon river two miles east of Le Quesnoy.

North of Valenciennes they cleared Raimes forest. Local fighting west of Tournai did not change the situation there.

In Serbia the allies made additional progress and Serbians drove the Austrians across the West Morava river 90 miles from Belgrade.

The Anglo-American drive between the Scheldt river and the Sambre-Oise canal was directed against Meibeuge. A great circle of forts surrounds the city on three sides while the Mormal forest forms its western defense.

The Anglo-American force is within two miles of this forest.

In the advance north of Valenciennes the British have arrived before Conde, a fortified railway town.

VIOLENT FIGHTING ON AMERICAN FRONT

GENERAL PERSHING REPORTS CAPTURE OF BANTHEVILLE AND ESTABLISHMENT OF NEW POSITIONS

(Special Service to Glendale Evening News)
WASHINGTON, October 24.—General Pershing cabled the war department this morning, confirming the American capture of Bantheville and the establishment of the line along the ridge north of the village.

Fighting on the American front was violent throughout yesterday and many prisoners and machine guns were captured.

Americans destroyed fifteen German airplanes and one balloon and lost one balloon and six airplanes.

WILL NEGOTIATE WITH CZECHS

NOTE DUE FROM AUSTRIA REFUSING TO RECOGNIZE CZECHO-SLOVAK NATIONAL COUNCIL

(Special Service to Glendale Evening News)
ZURICH, October 24.—An Austrian note will soon be sent to President Wilson in which Austria will refuse to negotiate with the Czecho-Slovak National Council but will offer to negotiate with the Czechs in Austria.

THE INFLUENZA EPIDEMIC

TOTAL NUMBER OF CASES REPORTED TO STATE BOARD OF HEALTH 5153

(Special Service to Glendale Evening News)
SACRAMENTO, October 24.—Four thousand, four hundred and eleven new cases of Spanish influenza were reported in California over night. The State Board of Health announced that the total number of cases in the state is 5153.

LOS ANGELES, October 24.—New cases of Spanish influenza reported today total 754 cases. There were 21 deaths.

MANY MEN FIT

MEDICAL EXAMINERS DELIGHTED WITH SHOWING MADE BY REGISTRANTS

The Board of Medical Examiners examined about one hundred men Tuesday and Wednesday and physicians and Exemption Board members were delighted with the showing made. They were a fine lot of men and about 85 per cent were found physically fit, according to Dr. Harrower. This is much better than the figures on the first registrants in June, 1917, and is quite unexpected. Board members do not undertake to explain it but are speculating some on the cause, some of them attributing it to the general awakening of the public to the importance of a good physical condition, some attributing it to simpler food and more sensible habits since war began.

IN "Y" WORK

David Black of Kenneth Road, who is engaged in Y. M. C. A. work at Camp Kearny, is in charge of Y. M. C. A. building No. 6 at the base hospital. Mr. Black's duties like those of all Y men engaged in war work are varied. The building of which he has charge is a new one and contains a living room, den and theater as well as a canteen and rooms for the secretary. Mrs. Black and daughter, Miss Esther, are living in San Diego to be near Mr. Black.

ENTERTAIN OLD FRIENDS

Rev. and Mrs. A. Smart of 110 Olive street entertained at luncheon Wednesday, old friends formerly of South Dakota but now of California. Covers were laid for Mrs. J. G. Campbell and her daughter, Mrs. Judd of San Ysidro, Mrs. John Cotton, another daughter, of Glendale, Mrs. Smart's daughter, Mrs. Wallbridge of Los Angeles, and Mrs. W. D. Root of Glendale. A very pleasant afternoon was enjoyed by the party, reviewing old times.

MRS. BEAMON'S FATHER

The Glendale Evening News regrets the error in its news item of October 23, 1918, concerning the financial embarrassment of Mrs. Beamon's father, occasioned by the "flu" embargo on his Los Angeles theatre. This item is entirely erroneous—he is experiencing no financial embarrassment.

THE BLESSED SUNSHINE

Now while children are out of school there is an excellent opportunity afforded them to get plenty of outdoor air and God's pure, invigorating sunshine. That does not mean that they are to take unreasonable exercise that will cause them to become overheated and probably contract colds, but it means that sensible outdoor activities, either work or play, will keep the youngsters in a healthy condition.

WEATHER FORECAST—Fair tonight and Friday. Gentle northwesterly winds.

FAREWELL TOKEN

HANDSOME MILITARY SUITCASE PRESENTED TO R. D. WHITE BY CHURCH FRIENDS

Wednesday evening Richardson D. White was pleasantly surprised by a committee representing the former Third Street Episcopal Congregation of which he had been an active member. The purpose of the call was to tender to Mr. White on behalf of the group of workers with whom he had been so intimately associated, their good wishes on the eve of his leaving to enter army service, and to present a more substantial token of regard in the shape of a military suitcase bearing Mr. White's initials. The greeting which accompanied the gift was prepared by Mrs. J. T. Crampton, but inasmuch as she is away from the city, it was presented by Albert C. Reed. Other members of the committee were R. H. Wells, Mr. and Mrs. George Bannock and J. T. Crampton. The original plans contemplated a surprise party at which Mr. White was to have been guest of honor, but the "flu" embargo vetoed that purpose and the congregation had no choice but to delegate a committee to perform the pleasant service. Mr. White was much touched by such an evidence of regard and appreciation and responded in a fitting manner when the suit case was given him. Mr. White is leaving Saturday morning for Fort MacArthur, where men who have enlisted in the Big Gun Corps are being assembled preparatory to being sent to an eastern officers' training camp.

SALVAGE EARNINGS

INCOME TO JUNIOR RED CROSS FROM THE WASTE JUNK IT COLLECTS

"Fine and dandy" is the salvage storehouse in the rear of the Pacific Electric station these days. The women who have been assisting with that work, who have long been distressed by the dust and disorder, within the past two weeks have put everything straight, and with the assistance of Chairman Rowley and his helpers have disposed of a goodly amount of stock. Yesterday Mrs. Glenwood Jones, Secretary of the Junior Red Cross, Acting Vice-Chairman Spencer, Mrs. W. W. Worley and her two nephews were on duty. The windows were washed, the long tables cleared and swept, the floor swept and everything looked as tidy as possible. Mrs. Myton has also rendered great assistance in this line since her splendid work with the Belgian garment drive. Mrs. Worley plans to devote Wednesdays to the salvage work as a regular thing.

Mr. Rowley was busier than a cranberry merchant, with his pocketbook fairly bulging with checks for the Junior Red Cross. He proudly exhibited them, a check for \$50.95 for papers recently sold, another for \$5.36 for bottles, still another for \$52.50 for sacks, and lastly a \$3.41 check for "skinned rags." The reporter had no sort of an idea what "skinned rags" were, but by inquiry discovered they are the last sad remains of the rags which have gone through the hands of the conservation workers and from which has been extracted everything that could be made to serve a useful purpose. After that sorting process they are available only as machinery "wipes" or for the manufacture of paper.

ENTERTAINS SOLDIERS

Several soldier boys have been recent guests in the home of Mrs. Ella Richardson at Central avenue and Riverdale drive, the list including Everett Bartlett, who has been in the infantry service at Camp Kearny and is just returning from a visit to his parents in Oklahoma; also Frank Prouty, from the sub base at San Pedro. He has recently moved his family to Glendale, their former home being in Massachusetts. They are now living at the southeast corner of Chestnut and Brand. Another guest was Raymond Mason of the Coast Artillery at Fort MacArthur. He was in the hospital when the rest of his Company left for overseas, so could not accompany them, to his great disappointment. Mrs. Richardson got acquainted with these young men through her social war work, as her home has always been open to soldiers.

THE POWERS BOYS

Mrs. N. A. Powers of East Colorado has been confined to her home by an attack of bronchitis, but is recovering from it. Her son Edwin Powers, who entered the army and was discharged because of an injury to his knee, is serving the government at San Pedro in another capacity. His brother Myron Powers is in the Student Army Corps at U. S. C. and was caught in the quarantine of the hospital there where he was doing guard duty when the influenza embargo struck them. He telephoned his brother today that he thought the boys would be transferred to their new barracks tonight. He likes the training very much. He is not able to visit his family very frequently, but they go to see him.

RULING AFFECTS WIVES

DECISION BY GEN. CROWDER IN CLASSIFICATION OF MARRIED REGISTRANTS

Ever since the classification of registrants began there has been questioning about the classification of men whose wives were capable of self support. The most recent ruling made by Provost Marshal General Crowder and transmitted to the local Board by Adjutant General Boree is that the fact that the wife is earning enough for her own support is not a sufficient reason for placing her husband in Class 1. Also, that the wife has a right to refuse to go to work and the Board has no authority to send the wife to work to support herself in order that the registrant may be placed in Class 1. The fact that the wife is in good health and therefore presumably capable of self support is insufficient as a reason for placing her husband in Class 1, but finally the local Board is expected to exercise its discretion in classifying married men.

HUTTON ACCIDENT

(Continued from Page 1)

Lawshe, who was driving our car, looked and exclaimed, "It's the Huttons!" I succeeded in stopping Mr. Davis and we clambered down to the car. I found Mrs. Hutton crawling on hands and knees in a dazed condition among the small brush further down, probably 15 feet from the wrecked car. Mr. Hutton was not in sight, but we soon found him, crushed under the car, which was lodged among heavy boulders, wheels up. Mr. Hutton evidently died instantly as the weight of the car was on his back just over the chest. Just as Mr. Davis and I needed help most, Mr. C. W. McClintock, a business man of Santa Fe, came from the opposite direction. We managed to carry Mrs. Hutton up the incline and placed her on a cot. She was unconscious and I supposed she was badly hurt, as she looked like death itself. We then endeavored to extricate the body of Mr. Hutton, but could only do so by rolling the car over and further down. As quickly as possible I went back to Santa Fe in Mr. McClintock's car and sent out Dr. Rose to aid Mrs. Hutton, and sent out Mr. Watts, undertaker, to bring in the body of Mr. Hutton. Mr. McClintock volunteered to go back and bring in Mrs. Hutton, which was accomplished by placing a hospital stretcher over the seats. On the way down from the scene of the accident I learned from Mr. McClintock that Mr. J. D. DeHuff, one of my old friends, was superintendent of the Indian School we were passing. I at once stopped, found Mr. DeHuff, who immediately got ready his car and went to the grade with a trained nurse and matron. Friends seemed to spring up from the ground. Mrs. Hutton was taken to St. Vincent's. Mr. Hutton's body was embalmed at the undertakers, and since beginning this letter I have had another wire from Mr. Dingle, saying that he will arrive tonight at 11:30.

We are wholly unable to understand what caused the accident. The road, or grade, was not at all unsafe; at the place of the accident, a sharp

turn, the roadbed is wide enough for three cars to pass. The steering wheel may have given way; a wheel may have broken, or Mr. Hutton, who was somewhat excitable, may have grabbed the wheel, as he did once in the Apache pass. Fresh gravel had been put on the hill, and the car went off just beyond the end of the gravel.

We will remain here as long as there is anything we can do to help. Mr. Dingle will take charge, of course, when he arrives.

This, in brief, is the sad story. We are all unstrung. On invitation of Mr. DeHuff we are staying at the Indian School, where it is quiet and restful.

Sincerely,

A. L. LAWSHE.

SOLDIERS PREFER CANDY TO LIQUOR

"Give the liquor to someone else, and allow my men a larger ration of candy, and I'll guarantee we will lick the Huns we meet," said an army officer.

A few years ago candy wasn't looked upon by the public generally as fuel for the body—as a real "bracer" when overcome by fatigue—but today it is so recognized.

The Yanks and the Tommies, the Frenchmen and the Italians, and all of the other Allies, will vouch for this. Sugar, whether in the form of candy, or other sweet stuff, acts as a stimulant, and as candy is easier to carry, and much easier to take, than in any other form, it is being shipped to the soldier boys by the shipload and by the trainload.

Incidentally, this discovery speaks well for the future of the industry. Because of a shortage of sugar, only four per cent of the output in the United States is made into candy, whereas formerly eight per cent was used, but after the war candy seems destined to come into its own—to be recognized because of its real food value.

Therefore you owe it to yourself to eat a certain amount of candy when you feel in need of a bracer. Or, if you are willing to get your sweets in

the form of honey or syrup, or plain sugar, you can send your share of candy to the soldier boys in the camps.

They'll appreciate it, and as they nibble a bar of chocolate, or munch a coconut bar, or some other form of candy, while on the march or in the trenches, they will thank you for your thoughtfulness.

NOTICE

Many who made pledges to the Red Cross war fund drive which was made on May 21st, have neglected to pay those pledges. They were given four months, or until October 1st, to make the payments, so that now the last payment is nearly a month overdue. Many have paid in full, some have paid part, and some have not paid anything on the pledges. Your Glendale Chapter is receiving urgent demands by telegraph from National Headquarters that these pledges should be collected not later than November 1st, which is little less than a week from now. We hope that all who read this and know their pledges to be delinquent, will help to answer this call and come to headquarters with the money. To those who can not come to headquarters, you can have the money ready so that when volunteer collectors come to your house within the next week they will not be delayed or put off later, as the time is too short to make more than one call. We can remember how proud we were when Glendale went over the top with its money and pledges at that drive and now it will be another proud moment when those pledges are all paid in full.

O. SPENCER,

Acting Vice-Chairman Glendale Chapter A. R. C.

CLASSIFIED ADS

FOR SALE

FOR SALE—50 White Leghorns 15 months old, \$1.25 each if taken at once. R. Gilbert, 622 So. Columbus Ave. Tel. Black 95. 45t2

NOTICE TO THE PUBLIC

BANKS TO CLOSE AT FOUR O'CLOCK

We find it necessary, on account of the increased work given to our Government and the community, in the handling of Liberty Loans, especially on the partial payment plan, and other duties required in various ways in assisting in War Work, to have more time for our clerical work, and have decided to close our Banks at 4 o'clock, commencing **Monday, October 28, 1918**, except Saturday, when we will close as usual at 12 o'clock.

Personals

Mrs. Ed Kirri of the Flower Apartments has been confined to her home for a few days by a bad cold.

Glen Eyrie Chapter O. E. S. will not hold its regular meeting tonight owing to the influenza embargo.

Carl Hoffmayr of 213 South Glendale avenue is recovering from a very severe attack of the influenza.

On account of the influenza embargo, there will be no meeting of the Woman's Relief Corps Friday.

Chairman Lanterman of the local Exemption Board is under the weather and was not able to be at headquarters Wednesday. He says it is not the "flu."

Alexander Nairn of Montrose, Colorado, who has been a guest in the family of Fred C. Farner of Glendale avenue for the past four months, left Wednesday for his Colorado home.

Born, to Mr. and Mrs. G. A. Houdy-shel Wednesday morning, October 23d, 1918, a nine-pound daughter, at the home of Mrs. Ellen Early of 519 East Palmer Ave., this city. The little girl has been named Viola Alice.

Born, to Mr. and Mrs. Roy King of 306 North Jackson street, a ten-pound daughter Wednesday afternoon, October 23d, 1918. Mrs. King and infant are at a private hospital in Los Angeles and both are doing well. They are considering calling the little one Dorothy.

Mrs. Louise Purnell is getting settled in her new home at 337 Riverdale drive. Besides thoroughly renovating the house with paint and paper, Mrs. Purnell has built in a breakfast room and also built a garage. It will soon be in shape for her to rest and enjoy it and to welcome her friends.

Mrs. Mitchell, daughter of Mrs. Ella Richardson of this city, has been visiting in Stanford and has been invited to resume her work as a teacher in the University in case her husband is called to war. She was on the faculty of Stanford several years ago and if she returns to the institution will be a teacher of physics.

"Jack" Jackson, husband of Mrs. Jackson, who is the Chief Clerk of the Exemption Board, has enlisted for service in the Big Gun Corps and leaves for service at Fort MacArthur Friday. He will be in the same corps with Richardson D. White of this city, who leaves the last of the week for Fort MacArthur. Mr. Jackson is not well known here but his wife has a big acquaintance among registrants.

The Exemption Board Headquarters is a very busy place these days. Wednesday a number of the teachers volunteered clerical service, the list including Mrs. Stone, Misses Circle, Land, Hatch and Bessie Parker. They were at work preparing Questionnaires to be sent to the young registrants from 18 to 19 years of age and to those of 37 and over. Miss Ida Waite has put in most of her time since the schools were closed at the Exemption Board.

E. N. Bishop, who makes express deliveries for the P. E. railway with an auto truck, was taken to the hospital of the P. E. Company in Los Angeles Wednesday, suffering with pneumonia. He has been feeling badly for some time but has been "keeping up" until he was forced to surrender and physicians discovered he had pneumonia. W. Farmer is handling the business of the company in Mr. Bishop's absence and driving the auto truck. He looks like a very capable substitute and the business will probably go forward as usual.

E. E. East, a civil engineer of this city who has been connected with the Highway Commission officially, recently went to Thornycroft Hospital for a remedial operation to fit himself for military service. His friends report that he is getting along nicely. He hopes to be inducted into some branch of the service where his special knowledge and experience will count. Mr. East has been greatly concerned about his sister, who is teaching in a High School in Champaign, Illinois, and who has been very ill of typhoid fever. She is much better, however.

Mrs. J. T. Crampton of Chestnut street has been the guest for the past two weeks of Mrs. J. W. Meyers of Long Beach. She is expected home Sunday.

In the show window of the War Comforts Headquarters maintained by the Christian Science Church is an object of curiosity and interest. On examination it is discovered to be a khaki army coat lined with she pskin tanned with the wool on. It was worn by Burt Richardson (son of Ella Richardson of this city) in his ammunition train service in France and also during his return voyage to this country and must have been exceedingly warm and comfortable. Mrs. Richardson plans to return it to Belgium with the next shipment of clothing dispatched to that country.

REPUBLICAN HEADQUARTERS

The Glendale Republican Club has established headquarters at 136 North Brand boulevard, with Ezra F. Parker, Chairman of the Club, in charge, ably assisted by Miss Eva Daniels and others. W. R. Phelon will unfurl a flag over the building, Friday. Phone Glen. 1573.

HOURS OF NEW SUPERINTENDENT

Dr. James Shults of Los Angeles, the new Superintendent of Schools elected to fill the vacancy caused by the resignation of Richardson D. White to enter the army, will be in his office at the Intermediate School, at Wilson avenue and Isabel street, every day next week from 9 a. m. to 12 m. and will keep those hours during the continuance of the embargo or while the schools are closed. Any one who wishes to consult him relative to school matters will find him there at those hours.

SAYS OLD JOHN TOLT

THE Los Angeles Times is fighting Single Tax Amendment 19. Why? The Times and those who guide it in its life-long fight on labor, own hundreds of thousands of acres of land. On this they pay a very small tax. If Amendment 19 carries they will pay more—a great deal more—or let go. See the point?

Big bankers are fighting this amendment. Real estate sharks and speculators are fighting it. Why? The bankers take the money you deposit with them and loan it to the speculators. If Amendment 19 carries speculators will be out of a job. Real estate sharks will have to go to work. The speculative value, similar to the water in stocks of big corporations, will be squeezed out. The use value—the real value—the productive value—will remain. The tax will be on land values, and no one can afford to hold a single acre of idle land. See the point?

It's well to know WHY the Times and the bankers fight Amendment 19. GET THESE FACTS:

Single Tax means cheaper lots and therefore more homes; cheaper land, therefore more farms; more men tilling the soil, therefore more jobs everywhere. And this means higher wages, both in the city and on the farms. Wage earners, in other words, will be getting the good things of life, in exchange for their labor, instead of giving it to the land hogs—the real estate sharks—the Los Angeles Times. See the point?

Two million Yanks will want homes in the city, or farms in the country, when they come back. The Times would leave them at the mercy of the land hogs—charge them a thousand or two thousand dollars for a lot—or from one to three thousand dollars an acre for a farm. Amendment 19 means the Yanks would get land at \$50 or \$100 an acre, or a lot for one or two hundred dollars. Which side do you suppose the Yanks favor—the speculators or Amendment 19? See the point?

You won't find the name of ONE working man on the list of those who are publicly fighting Amendment 19. Why? There isn't a laborer in the state who has made a study of Amendment 19 who will allow his name to be used by the Times crowd in its fight on the measure. That's why. Ship workers are for it. Steel workers are for it. Carpenters, plumbers, factory employees, clerks, stenographers—all who labor, including several thousand war workers—are for it. See the point?

Amendment 19, which is a one single tax, will take all the tax off of personal property and place it, not on land, but on land values, thereby squeezing the inflated and artificial value out of land. See the point? That's why the Times and bankers holler. Vote yes on Amendment 19 and you'll hear them squeal. Our only weapon is the ballot. Let's prove to Big Business that this is the day of Democracy—the day of the square deal—the day foretold by President Wilson.

Let's show the Times that we are tired of eating crumbs tossed to us by the rich. Let's tear the mask from the faces of those who would buy our labor at their price, and sell us homes and butter, farms and bacon, lots and beefsteak, at speculators' prices.

Let's prove to the Times that the day of the rich shirker has passed, and the day of the real worker has arrived. Let's be real men, and real women, and refuse to be hoodwinked, and hornswoggled, and bulldozed by those who drive around in their \$5000 limousines, and tell us to be good dogs and feed upon the scraps they throw us.

Let's go to the ballot box and put over Amendment 19, and free the 20,000,000 idle acres in the state of California.

HOME
The greatest word in
Webster's Unabridged

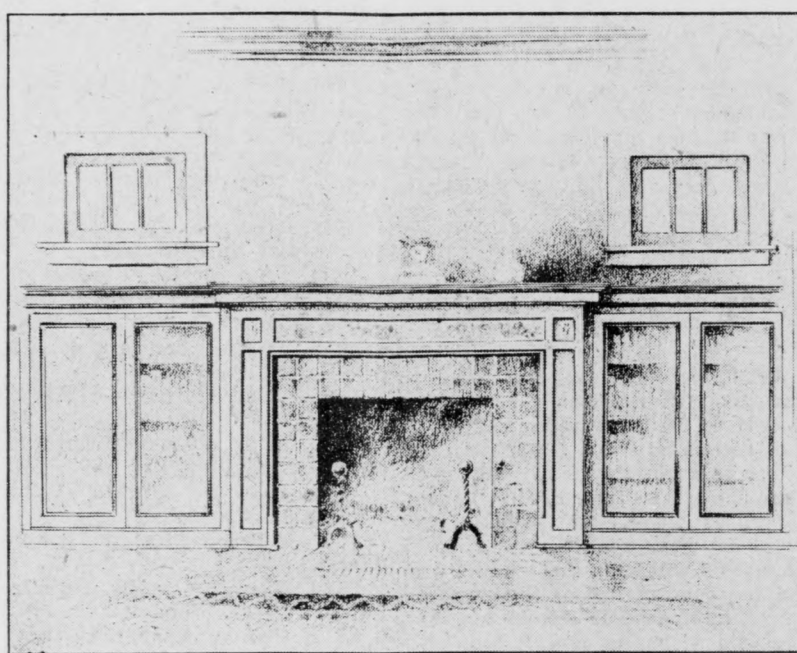

H GLENDALE'S WEEKLY HOME PAGE E

Buy For Cash
and take your change in
Thrift Stamps

Your home is the outward expression of your family. It is the advertisement of the individual and by it you will be judged.

If your home needs painting and repairing and is surrounded by an unkept lawn and garden it gives to the passing public the same impression of its occupants, as does the dirty, ragged tramp of the man inside the clothes.

Remember too: Money spent in the upkeep and improvement of Real Estate is the wisest of wise expenditure.

The interior conveniences of the modern bungalow offer more comforts and attractions than did the royal palaces of the recent past.

The fireplace, bookcases, buffets, cabinet kitchens, etc., make housekeeping a pleasure. The small cost is soon forgotten, but the enjoyment is long-lived.

LET'S BELONG

If you like the old town best,
Tell 'em so.
If you'd have her lead the rest,
Help her grow.
When there's anything to do
Let the fellows count on you.
You'll feel bully when it's through,
Don't you know.
If you want to make a hit
Get a name.
If the other fellow's it,
Who's to blame?
Spend your money in the town
Where you pull the shekels down;
Give the mail concern a frown—
That's the game.
If you're used to giving knocks,
Change your style,
Throw bouquets instead of rocks
For a while.
Let the other fellow roast.
Shun him as you would a ghost.
Meet his hammer with a boost
And a smile.
When a stranger from afar
Comes along,
Tell him who and what we are—
Make it strong.
Needn't flatter, never bluff,
Tell the truth, for that's enough,
Join the boosters—they're the stuff,
Let's belong.
Clyde (N. Y.) Herald.

OWN YOUR OWN HOME

OWN YOUR OWN HOME

DO YOU KNOW?

That it is the duty of every voter to use his right of franchise at the election which will be held November 5. Not only is it the duty of every citizen to vote, but it is also the duty of every citizen to vote intelligently. Make a careful study of the various amendments that appear on the ballot. Learn as to the merits and demerits of these amendments and vote for or against them according to information gained.

If the laws of the Nation, State, County and City are not what they should be, the people are to blame for the defects. The people elect the lawmakers, and to have good laws means that good people must be elected to make and enforce the laws.

Do not wait until a friend tells you for what candidate you should vote before making your choice as to the man for whom you will cast a ballot on November 5, but have a live interest as to your duty and by making diligent inquiries make your own choice of candidates.

The intelligent and conscientious voter is always a good citizen, for when he votes intelligently and wisely he is performing one of the fundamental requirements of citizenship. Remember the date of the election. Remember the hour the polls open and close. Preserve your notification card which informs you as to the number of the precinct in which you vote. Retain the specimen ballot that you may refer to it as a guide for selecting candidates and amendments you intend to support when you enter the voting booth to cast your ballot.

The Plymouth Colony was made up of people from European nations who sought freedom of franchise. Now since the American people have that right, may it be recognized by them on Tuesday November 5. The use of an intelligent franchise and successful home building go hand in hand.

Keep The Home Fires Burning

Alike in sentiment and fireplace for the victorious return of our boys from over there.

Remember, they are fighting to save the homes of man from wanton destruction. We must not let them return to find neglect and carelessness have achieved what they have kept the Hun from doing.

Fix up, clean up, paint up---let HOME welcome him with a freshness and cleanliness that will contrast the memory of destruction he has seen.

Don't let him find HOME looking like the Hun had been here. Start now on the needed repairs. Let's make our HOMES reflect the joyousness of our HEARTS

When Our Boys Come Marching Home

Uncle Dan's Column

THE SQUATTER

Don't hear much 'bout the regular ole time squatter in these parts now-a-days. Lordy, how I do remember 'em. A shiftless lot o' human driftwood, settin' up a shack here and there and then havin' to move when they was drove off by the owners o' the land. They was sure one ornery lot and as unwelcome as they was undesirable.

Yes, sir, thanks to progress this type is mostly a thing o' the past, but in their place we have the modern squatter known to us as the tenant or renter. True, he is better as a class but many o' the same shiftless habits are his'n.

Bein' subject to a landlord's beck and call seems to blunt a man's independence, sorta makes him less interested in his town, his neighborhood and his family. Ever notice how the new home builder starts regular to work in his yard o' evenin's, how he is always amongst those present at the Thursday night "Community Development Meetin'," and how he never misses a chance to tell folks he owns his own home? But best of all it makes a booster outa the usta be knocker. Yes sir, just take notice of the "Anvil Chorus" and you'll find mostly the members are from the land o' renters. Ownin' a home makes a Booster every time.

Go to the Business Men's meetin' or the Civic Club. You'll find most of the worth-while folks there and count 'em over, see how many o' 'em are home owners. See if they're squatters or permanent citizens.

Brother, be you a sufferin' from discontent and lack o' interest in life, growin' old in another man's house, or are you listed among the property owners, enjoyin' that income o' happiness, contentment and pride o' possession that goes free with Home Ownership?

Be you a citizen or jest a squatter?
